PROFILE SUMMARY

B.Tech CSE student at Parul University with a dual focus on cybersecurity and AI. Experienced in building full-stack AI-powered applications, security tooling, and intelligent agents. Quick Heal certified across multiple security disciplines. Passionate about using technology to solve real-world problems

PROJECTS

Path Finder

- AI-based career guidance system that analyzes resumes, identifies skill gaps using Sentence-BERT semantic similarity, and generates personalized learning roadmaps with YouTube resource recommendations via Gemini & FastAPI backend.
- Tech Stack: Python, FastAPI, React.js, Sentence-BERT, Gemini API, spaCy

Green Earth

- Developed GreenEarth, an AI-powered climate analytics platform that processes NetCDF datasets using FastAPI and Xarray, integrates machine learning models (Isolation Forest, Linear Regression, LSTM) for anomaly detection and prediction, and visualizes insights through an interactive React dashboard
- Tech Stack: Python, FastAPI, React.js, LSTM, Isolation Forest, NumPy, NetCDF

EDUCATION

Parul University

BTech CSE IEP (QUICK HEAL)

CGPA: 8.86

SKILLS

Programming Languages

C++, Python, Java, JavaScript, SQL

Frameworks & Development

React.js, Node.js, Express.js, FastAPI, REST APIs

Soft Skills

Communication, Time Management, Collaboration, Problem Solving, Adaptability, Fast Learner

Databases & Cloud

MongoDB, MySQL, Vector Databases (Learning), Docker (Learning)

Cybersecurity Tools

OWASP ZAP, Metasploit, Kali Linux, Wireshark, VAPT, Network Security

AI / Machine Learning

LangChain, Agentic AI, NLP, Sentence-BERT, spaCy, LSTM, Isolation Forest, Semantic Search

CERTIFICATIONS

- Quick Heal Certified Cyber Security Analyst - Quick Heal Technologies.
- Quick Heal Certified System & Server Security Analyst- Quick Heal Technologies.
- Quick Heal Certified Network Security Analyst- Quick Heal Technologies.
- Quick Heal Certified Managing Cloud Infrastructure & Security Analyst- Quick Heal Technologies
- Quick Heal Certified (VAPT) Analyst- Quick Heal Technologies
- Introduction to IoT and Digital Transformation - NetAcademy
- Power BI for Beginners - Simplilearn
